

I am shocked to find out that the The National Association of Broadcasters is trying to limit what XM Radio can broadcast. As a CUSTOMER I choose to listen to both XM radion and local radios. I pay for the priveledge to listen to XM and am quite happy with the services I receive. I don't believe that since I pay for XM Radio anyone should have a say in what I listen to whether it be music, talk, weather or traffic.

I hope the FCC rejects the NAB's petition 4-160, so XM Radio can continue to supply the programming I want and pay for.
